

Pest Control

If you haven't already downloaded our other Plant catalogues, then go online and visit <https://kitchengardenshop.uk/shop/> to do so.

Hi although we are closed due to the coronavirus crisis, we can still offer you our full Garden range to help keep you busy in the garden whether it is growing your own food or keeping up with all those gardening tasks. We are also online offering you regular help, advice, and top tips for the garden - see our newsletter and blog

If you would like to order, please can you text (07969) 212855 with details of plants you are looking for and I can see what is available. Alternatively, you can state the Fertiliser/Feed number (located on the top right corner of each image) of the Fertiliser/Feed you wish to buy. If you message on WhatsApp, I can also send you any pictures of plants looking good.

We can then arrange a designated time for collection at Kitchen Garden observing social distance or we can offer a local delivery service.

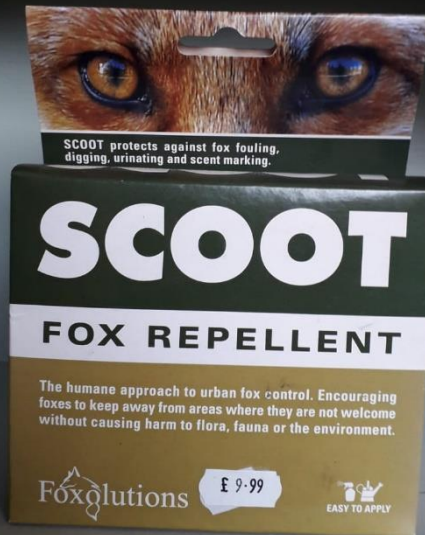

You will receive a text in advance stating total amount x

Thank-you Tracey Fletcher
